

Local Land Charges external release notice

Release number: 10.9

Release Date: 26/03/2024

Service: Maintain local land charges

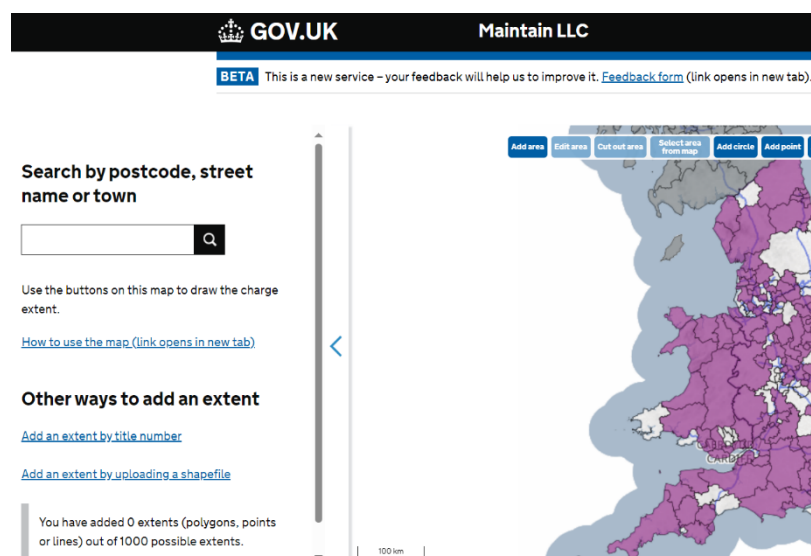

- Select area from map

The existing 'Copy from map' mapping function has now been renamed 'Select area from map.' It was clear that some users did not understand the 'copy from map' function, so we have renamed it to better reflect what it does. We will continue to monitor the usage of 'select area from map' to maximise the number of users who use this powerful function.

- Add charge extent by title number

You can now use a HM Land Registry title number to use a registered title extent when creating a new local land charge.

Select the 'Add an extent by title number' link, which can be found on the left side of the map display when adding a new charge:

Enter the title number you wish to use as your charge extent:

[< Back](#)

Add an extent by title number

Enter a title number. You must ensure that the charge extent you create is correct before adding your charge.

[Continue](#)[Cancel](#)

The extent for the title number will now be displayed on the map. You must satisfy yourself that the extent is correct before you complete registering your charge.

- Various technical maintenance and fixes.
