

## ***Local Land Charges internal release notice***

---

***Release number: 10.3***

***Release Date: 06/12/2023***

---

### **Service: Maintain / Search local land charges**

- Semi-automation of Search-for-Searches function. Emails to customers who have conducted free searches affected by late charge registrations can now be auto-generated and sent by HMLR SPI team users.
- Search service customers on gov.uk will now see a new section under 'My Account' if any repeat searches are recommended, with the email referred to above linking directly to this new section. The searches in question are listed and can easily be repeated from this section.
- Permissions: SPI team users can now suspend api threshold limits
- Update OS licence link in Maintain
- Various bug fixes and technical amendments including enhancing health checks and HTTP headers for added security
