

Local Land Charges release notice

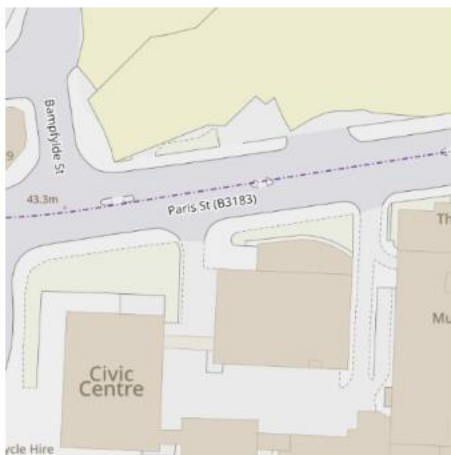

Release number 13.0

Release Date: 9 September 2025

Service: Maintain local land charges

- **Implement new map provider service.**

This change switches the service to a new map product, provided by Ordnance Survey. There are some visual changes, but you should not notice any difference in service usability. The new service will enable more frequent updates in the future, and better aligns with HM Land Registry's future geospatial strategy.

Original map style

New map style

- **API admin users only: Add ability to self-serve new API tokens, where the existing token is due to expire (access tokens presently expire after 1000 calendar days).**

The function can be found under the 'Manage Maintain service' section of the Maintain menu, for API admin users. The email address associated with the API admin account will be notified 60 days and 30 days before the token is due to expire. A final notification will also be sent should the token expire.

- **Update designs to align with latest version of the Government Digital Service toolkit**

Visual changes to certain user flows in order to match the latest design components used on Gov.UK.
