Local Land Charges

Local Land Charges external release notice

Release number 7.6

Release Date: 27/04/2022

Service: Maintain local land charges

Enhancements

- ***Enhance charge history view – display of full charge details for historic versions of a charge is now possible.***
  When viewing a charge in the Maintain service, selecting 'Charge History' will show an expandable view detailing what fields have been altered in previous versions of the charge. Selecting a particular version will display the full detail of that historic version.

- ***Increase feature limit for geometries per charge from 500 to 1000.***

- ***Improve local land charges api validation: Expiry date cannot be before registration date***
